Overview

Joseph (Joe) Coy is the owner and operator of Coy's Woodworking. He has been custom crafting furniture and cabinets for over 15 years. Joe keeps up to date with the current "hot" items on the market and takes pride in making sure every piece made is to his high standards. After 8 years of serving in the Marines, he still carries the Marines attention to detail and high work ethic.

Cabinets

Maple Wood Coy's Maple Dye with Vandyke Glazing

Natural Oak - Post Form

Cabinets are custom crafted to your design. Construction is all solid wood and veneer ply wood. All doors and trim work are crafted in shop, not outsourced.

A 3D computerized drawing to view your design with proposal is provided.

Countertops

Available Styles of Countertops:

Hanstone - Is an innovative new product that combines natural quartz, one of nature's hardest materials to produce. It's a durable and luxurious stone surface.

Solid Surface - Products are manufactured with high performance resin systems such as acrylic. Solid surface materials are sold under well known name brands like Gibraltar, Hanex and Staron; Solid Surface is sanitary and easily maintained with no seam on your countertop or sink.

Post Form - Is the popular laminate countertops that have been tested with time. The one-piece backsplash eliminates water problems and makes clean up easy. Post form suppliers are the very popular Wilsonart and Formica. An attached sink is now available for Post Form.
